

# ROSWELL DAILY RECORD.

VOLUME 8.

ROSWELL, NEW MEXICO, WEDNESDAY EVENING, JUNE 15, 1910

NUMBER 88

## GLIDDEN TOUR IS ON

That James W. Stockard, and Charles Sharp, the local men in the Glidden Tour, are making a hit in the east is shown by the following telegram, sent last night from Louisville, Ky., by P. D. Arthur, General Sales Manager of the Ohio Motor Car Company:

"Jimmie and Charles known on the trip as Roaring Bill and Alkali Ike. They brought the Ohio car in to Louisville, a distance of 160 miles one hour ahead of time, with the car in perfect condition. They have a hard trip tomorrow, but are equal to it."

From Cincinnati to Louisville is the first day's trip of the celebrated Glidden tour, concerning which the dispatches have the following to say:

**Glidden Tour Contest.**  
Cincinnati, O., June 15.—Contestants in the 1910 national reliability tour of the American Automobile Association for the Glidden and Chicago trophies got away from Cincinnati today on the first leg of the 2,500 mile journey through Kentucky, Tennessee, Arkansas, Texas, Oklahoma, Kansas, Nebraska, Iowa and Illinois. Today's run is through a most delightful section of the Blue Grass State, ending tonight at Louisville, a distance of 166 miles.

The schedule to be followed on the long trip will be substantially as follows, although conditions of road and weather may necessitate changes:

June 16—Louisville to Nashville.  
June 17—Nashville to Knoxville.  
June 18—Knoxville to Memphis.  
June 19—Memphis to Little Rock.  
June 20—Little Rock to Texarkana.  
June 21—Texarkana to Dallas.  
June 22—Dallas to Lawton.  
June 23—Lawton to Oklahoma City.  
June 24—Oklahoma City to Wichita.  
June 25—Wichita to Kansas City.  
June 26—Kansas City to Omaha.  
June 27—Omaha to Des Moines.  
June 28—Des Moines to Davenport.  
June 29—Davenport to Chicago.

There are to be two trophy awards this year—the Glidden trophy and the Chicago trophy. Only stock cars previously registered as to all of their mechanical details with the contest board were allowed to compete for either trophy. All the cars competing for the Glidden trophy are stock touring cars, while runabouts and midlatitude touring cars will compete for the trophy offered by the Chicago Motor Club. In both classes the winners will be those cars finishing the tour with the least number of penalty points. Penalties will be imposed in accordance with a fixed penalty schedule, which is incorporated in the 1910 contest board rules. Under this schedule cars are penalized from 1 to 500 points according to the seriousness of the mechanical troubles developed.

**The Kansas City Stock Market.**  
Kansas City, Mo., June 15.—Cattle receipts, 8,000. Market steady to 10 cents higher. Native steers, 6.00@8.50; southern steers, 4.25@7.60; southern cows, 3.00@5.50; native cows and heifers, 3.50@7.75; stockers and feeders, 4.00@6.30; bulls, 4.00@6.00; calves, 4.50@8.50; western steers, 5.75@8.25; western cows, 4.00@6.50.  
Hog receipts, 11,000; market ten cents higher. Bulk of sales, 9.40@9.50; heavy, 9.45@9.55; packers and butchers, 9.40@9.55; light, 9.30@9.50; pigs, 8.90@9.10.  
Sheep receipts, 7,000. Market 10 to 15 cents lower. Muttons, 4.50@6.00; lambs, 7.00@8.75; fed wethers and yearlings, 4.75@7.50; fed western ewes, 4.50@5.50.

## TRIED TO FLY FROM TOPEKA TO KANSAS CITY.

Topeka, Kan., June 15.—J. C. Mars, an aviator, left Topeka at 9:14 this morning in an attempt to fly to Kansas City, but treacherous winds and a defective engine forced him to descend near Grantsville, six miles out and again at Newman, fourteen miles away and a third time at Midland. The wind was high when he landed the third time, but he expected to resume his flight before noon.

Mars is trying for a prize of \$5,000 offered by J. C. Strang, a capitalist of Kansas City. The condition is that he must make the flight of 70 miles in three hours actual flying time, although he may land as often as he chooses.

Mars is using a Curtiss machine. Lawrence, Kan., June 15.—At 1:30 o'clock Mars arrived here and went to a hotel to rest, leaving the aeroplane at Midland, two miles west. He announced that he would not resume his flight before three o'clock, but that he will complete his journey before evening.

## WIRELESS PEOPLES ACCUSED OF MISUSING THE MAILS

New York, June 15.—President Wilson and Vice President Bogart, of the United Wireless Telegraph Company, were taken into custody by U. S. Marshal at the company's offices here this afternoon and taken before a United States commissioner to answer to the charge of misuse of the mails.

The nature of the charges were not made public prior to the hearing.

The United Wireless is incorporated at twenty millions.

## THE CHARLTON MYSTERY STILL BOTHERS POLICE.

Cornio, Italy, June 15.—While every day turns up some new feature adding interest to the Lake Como mystery, it is evident the police are still in doubt as to the identity of the person or persons, who, after beating Mrs. Scott Castle Charlton into insensibility, crowded her into a trunk there to die of suffocation.

Every effort is being made to locate Charlton, and today word was received from Lucerne that a young man believed to be the husband was seen there Saturday, the day after the trunk containing the body of Mrs. Charlton was fished out of the lake.

At the same time following the theory that both Charlton and his wife were murdered Lake Como is again being dragged today for the body of the husband.

Constantin Ispolanoff, the chance acquaintance of Charlton, who has been in custody since Friday, was again interrogated today, this time by the examining judge. In his replies the Russian was disposed to poke fun at the authorities.

Have your title examined now and get a certificate. You then know if you have a good title.—Roswell Title & Trust Company.

Phone No. 9 for Picnic Wagon.

## SEC. DICKINSON AT WEST POINT COMMENCEMENT.

West Point, N. Y., June 15.—The commencement day exercises at the U. S. Military Academy today were participated in by Secretary of War Dickinson, who presented second lieutenant's commissions to the eighty-two graduates.

## PRESIDENT TAFT OFF ANOTHER JUNKET.

Marietta, Ohio, June 15.—President Taft arrived here shortly after noon to attend the diamond jubilee celebration of the 75th anniversary of Marietta College. An official reception committee and two thousand children carrying flags and flowers extended the greeting of the city. The President was showered with blossoms as he drove to the home of W. W. Miller, escorted by the national guard.

## LAKE ARTHUR COMING FRIDAY AND SATURDAY.

The Roswell base ball team now has nine games scheduled for the rest of the month, as follows: Lake Arthur in Roswell Friday and Saturday of this week; Clovis in Roswell Wednesday, Thursday and Friday of next week; Albuquerque in Albuquerque on June 25, 26 and 27, and Belen in Roswell on June 30. Games will be arranged in Roswell on July 4.

## RAILROADS MAKE TRAFFIC DEALS IN SOUTHWEST.

Chicago, June 15.—Announcement was made here at the offices of the Frisco Railroad of the formation of a traffic agreement for the interchange of freight and passenger business between the Frisco and the Houston & Texas Central, together with the Southern Pacific lines in Texas.

The agreement, which will be effective today, will close the gap in the Frisco line to the Southwest which was left when the Frisco separated from the Rock Island. It will also give the Frisco a through line, eventually, to the City of Mexico, through connection with the National Railways of Mexico.

## TWO AUSTRIANS BURNED TO DEATH AT NIAGARA, ONT.

Niagara Falls, Ont., June 15.—Two Austrian laborers, known only by check numbers, were burned to death in their shack at Falls View, near here last night. The men were employed in the Potter Development Works.

## SENATORS SAY STATEHOOD BILL THIS SESSION

Washington, June 15.—The Senate leaders said today that the passage of the statehood bill by the senate at the present session is assured. It will not be taken up, however, until action is had on the conference report on the postal savings bank bill.

A bill to authorize the issuance of certificates of indebtedness to the amount of \$30,000,000 to complete reclamation projects was adopted by the senate as a rider on the pending administration land withdrawal bill. Only Burton, Gallinger and Keen voted against it.

Washington, June 15.—The House rules committee today decided to

give one day each to the consideration this week of the Appalachian Forest Reserve bill and the Scott anti-option bill to prohibit dealings in cotton futures unless the actual transfer of the cotton is made. This probably insures a vote of the house on these two measures at the present session.

Washington, June 15.—Senator Lodge today introduced a bill permitting associate justice Moody, of the Supreme Court, to retire at full pay, notwithstanding he has not served ten years, nor is he 70 years old as required by existing laws.

Moody's death is given as the reason for the proposed act.

## LIVES LOST IN FLOODS KILLS MAN WITH KNIFE

Belgrade, Serbia, June 15.—Floods following torrential rains have caused havoc in the valley of the Morava river. Thirty-five lives were lost and the towns of Chupria, Jagodina and Svilainatz were inundated and many houses collapsed.

King Peter left for the scene today.

**Floods in Belgium.**  
Brussels, Belgium, June 15.—Heavy rains throughout Belgium, followed by flood conditions, has created heavy losses and villages have been inundated.

**Disastrous in Switzerland.**  
Berne, Switzerland, June 15.—Inundations in eastern and central districts of Switzerland have caused immense damage. A land slide at Altorf buried a factory building and killed ten of the children employees.

**Villages Washed Away.**  
Cologne, Germany, June 15.—Stories of the death and sufferings of the survivors are brought by refugees from the flooded valley of Ahr. Several villages were literally washed away, the houses collapsing and burying their occupants beneath the flood. So strong was the current that it swept away locomotives and steam rollers. In some instances the villagers sought refuge in trees only to be drowned when the water tore the trees up by the roots and bore them away.

**Oberammergau Cut Off.**  
Munich, Bavaria, June 15.—Oberammergau, the scene of the passion play, is today cut off from communication with outside points by the floods. Some 600 strangers are in the city to witness the performance, of whom 200 are Americans. It is believed, however, that they are in no danger as the hotels are on high ground. The lower streets are full of water.

The meteorological observatories in the higher Alps announce that the snows are melting rapidly and still greater floods are expected.

## FOUND DEAD RIDING ON PILOT OF LOCOMOTIVE.

Akron, Ohio, June 15.—Seated on the pilot of a locomotive and holding a sack of flour, the body of Chas. M. Webb, aged 35 years, a farmer living near Clinton, was found early today. It is supposed he was struck by the engine when walking along the track and hurled onto the pilot.

**Owl Bank Shortens Hours.**

New York, June 15.—New York's "Owl" financial institution, the Night and Day Bank in Fifth avenue, will hereafter have shorter business hours than the new schedule going into effect today. It has been found that New Yorkers are not such night hawks as was expected, and that after midnight there is practically no demand for the services of a bank.

Since the bank was started in 1906 it has been open to depositors during the entire twenty-four hours with the exception of Sundays and legal holidays, thus maintaining a standard unique among the banks of this city.

A close watch, however, has been kept close on the amount of business done after the regular banking hours running from 9 to 3 o'clock and the directors have come to the conclusion that there is so little demand on the bank after midnight that they have decided to close at that hour. The bank hereafter will open at 8 in the morning and close at midnight. The safe deposit company will also observe the same hours of business in the future.

P. N. Smith, of Denver, is here selling school, church and opera house chairs and furniture.

Special to the Record.

Carlsbad, June 15.—A man named Hamilton was stabbed to death with a pocket-knife on Monday afternoon, June 13, and C. E. House, who held an adjoining claim to that of Hamilton, is on his way to Carlsbad, being brought in accused of killing him.

Hamilton and House both lived near Roberts post office, which is in the extreme eastern part of Eddy county, almost directly east of Carlsbad, near the Texas line. The two men are said to have quarreled over their land. House has a family. Further details are lacking.

**WANTED:**—To rent a buggy for two weeks, light use and good care.—11 Record Office. 8812.

## THE DEMOCRATIC STATE CONVENTION IN PENNA.

Allentown, Pa., June 15.—The drawn at midnight of C. L. L. Munson, of Williamsport, after he practically had the gubernatorial nomination in his grasp, has somewhat disarranged the plans of the leaders today in the Democratic state convention.

Two men are still in the field: William H. Berry, of Chester, former state treasurer, who first made public the alleged frauds in furnishing the state capitol and State Senator Webster Grin, of Doylestown.

Frequently a candidate for state offices, Munson refuses to explain his withdrawal.

**Maine Democrats Hopeful.**

Augusta, Me., June 15.—The Democratic state convention assembled in the city hall this forenoon to nominate a candidate for governor and a candidate for state auditor, to consider the naming of an aspirant for the United States Senate and to transact other business looking to a Democratic victory in Maine this fall.

The convention is composed of 1,271 delegates and every man among them is fairly bubbling over with optimism. It is asserted that the Republican party is split wide open and that the Democracy is united as never before.

Two years ago, in a presidential year the Republicans carried the state by only 7,000, and the Democratic leaders declare and assert that this majority will be more than wiped out next November. Republican politicians are awaiting the action of today's convention with a great deal of interest.

The choice for governor on the Democratic ticket apparently lies between Obadiah Gardner, the farmer who came so near to victory in the gubernatorial race two years ago, and Col. Frederick W. Plaisted, mayor of Augusta.

Fred Emery Beane, chairman of the Democratic State Committee, in speak

ing of the prospects for Democratic success at the coming State election, said: "I have been following the political game in Maine for many years, but I never saw the time when the prospects were so bright for the Democracy as they are today, in fact it seems almost certain that not only will the next governor of Maine be a Democrat, but he will also have a Democratic legislature behind him."

"Now this may appear to be rather a boastful statement, but it isn't, as I shall show you. Two years ago at the State election there were many representatives elected from districts which were extremely close and were only carried for the Republicans by a margin of from 10 to 20 votes."

"One innovation which I believe the Democrats of Maine will adopt and which was mentioned in the call for the State convention, is the pledging of Democratic candidates for the Legislature to support as a candidate for the United States Senate, the man receiving the highest popular vote, providing there is more than one candidate for the position. While this may be something of an innovation for Maine still it has been tried in Oregon and gives entire satisfaction, for it enables the great mass of the people to have a voice in the selection of their United States Senators, which under present conditions, they do not have. The plan is generally termed the 'Oregon Plan,' and the way it worked in that strong Republican State was by the election of Senator George E. Chamberlain, a Democrat, who won out, because the people had greater confidence in him than they did in his Republican opponent."

Rooms, also for light housekeeping cool and shady, Mo. S. S. Inn. 8316.

## MISS NELSON AND MR. ARTLEY TO MARRY SOON.

Miss Eva Nelson gave a party this morning to a crowd of young lady friends at which she announced her marriage to Mr. Wili Harmon Artley, to take place on Wednesday evening, June 29, at the home of her parents, Mr. and Mrs. J. M. Nelson, at 820 North Main street. The wedding will be a quiet one and only a few friends will be in attendance. The couple will go to house-keeping at once in the pretty bungalow the prospective groom is now building on Washington avenue. The wedding is to occur at 8:30 in the evening.

While the announcement comes as a surprise to the general public, it was rather expected by the many friends of the young people most closely concerned. Miss Nelson is one of the most talented, cultured and beautiful young women of Roswell. She is a favorite in both social and musical circles and her friends can hardly be numbered. She has resided here since early girlhood and is a Roswell girl of whom the city is proud to claim as one of its daughters. Mr. Artley is a young man of sterling worth, being a level-headed, capable business man, a member of the contracting firm of Cooper & Artley. He likewise has many friends, and the friends of both of the young people are deeply interested in their welfare and happiness.

For the party this morning the porch at the Nelson home was artistically decorated with Navajos, pillows and flowers. Four tables were filled for cards and "five hundred" was the game. Miss Ruth Sarader won the prize and Mrs. Roscoe Nisbet, as a penalty for making the lowest score, had to read what each girl present considered "her ideal of manhood" on a slip of paper. The ideal of the hostess came last and was "Wili Harmon Artley." And thus the announcement was uniquely made.

Punch was served throughout the games and ices and cakes in green and white, the colors of the party, were served at noon.

## NOTICE.

To subscribers of the local telephone exchange we wish to state that our service is not up to its usual standard on account of the changes and disorder incident to the installation of our new central energy switchboard. The service will be more or less impaired for six weeks. At the end of that time we expect to give improved telephone service over equipment as modern as any in the larger cities.

We request your patience while making these improvements and assure you we shall be no longer in making them than is absolutely necessary.

We desire to thank those who have already had impaired service for the patience and courtesy they have accorded us. 8716

## NO FIGHT IN CALIFORNIA

San Francisco, June 15.—The fight between Jeffries and Johnson for the heavyweight championship of the world will probably not be held in California.

Governor James Gillett this afternoon informed the Associated Press that he had instructed Attorney General U. S. Webb to stop the fight.

"And I shall expect him to do so," added Governor Gillett.

Attorney General Webb later admitted he had received instructions to stop the fight and said he would take action at once.

"If Governor Gillett has stated he will not permit us to handle the Jeffries-Johnson fight in this state, that settles us. We will not attempt to 'buck him' nor bring down the militia upon us. I shall order work stopped at once on the arena and take the fight elsewhere. I prefer Salt Lake, but Reno and Ely, Nevada, will also receive consideration." This statement was made this afternoon by Tex Rickard to the Associated Press. Jack Gleason, who was present, agreed with the expressions of his partner.

## CLEARING GROUND FOR ADDITION TO BANK HOUSE.

Workmen are now clearing the ground at the rear of the Citizens National Bank to make room for the construction of an addition to the banking house 70 by 25 feet, which will almost double the size of the building, which is now 80 by 25 feet. The addition will correspond in appearance in every way to the present building. After the construction of the addition the bank will be moved into the new section, and the old portion of the house will be remodeled to correspond to the new. This done, the bank will move to its new home. In all, the work will probably occupy the time between now and Christmas, and will cost approximately \$25,000. The work is not being done by contract, but is in the hands of S. P. Denning.

The addition to the building will give the bank the big increase in space that has long been needed. It will afford many more office rooms on the second floor and a small store room or two at the rear on the first floor, facing on Fourth street. Modern, commodious vaults will be built in the new portion of the building and when they are finished the present vault will be torn out of the front room to make more space for the banking house. The stairway of the new building will face out on Fourth street, near the center of the completed structure, and the present stairway will be torn out to give more room to the bank, proper. The bank will have a cement, tiled floor and elegant new fixtures. The entire building will be heated with a steam plant, to be installed in a basement under the new section, and will be wired for electricity in the most approved style. The bank will not only have increased space in the main room, but will have president's, cashier's rooms, loan rooms, etc. A special vault will be built to accommodate safety deposit patrons and they may visit this vault by passing only through the cashier's room. The completed structure will be modern throughout and a complete unit, the same as a new building. All the second story is rented and the bank is to occupy most of the lower floor.

The extension will carry the building east to within fifteen feet of the stone structure owned by Alex Akin.

## U. S. WEATHER BUREAU.

(Local Report, Observation Taken at 6:00 a. m.)  
Roswell, N. M., June 15.—Temperature, max. 87; min. 63; mean 75. Precipitation, 0; wind, dir. SE. velocity, weather, clear.

Comparative temperature data extremes this date last year, max. 85; min. 59; extremes this date 16 years' record, max. 108, 1896; min. 48, 1901.

Forecast for Roswell and vicinity: To-night partly cloudy probably showers; Thursday fair.
